

Bankruptcy Noticing and Service Disruption

Thursday, October 15, 2026

The Bankruptcy Noticing Center (BNC) is experiencing a service disruption nationwide, and the delivery of electronic and paper notices has been interrupted. BAE Systems, the contractor that services the BNC, is actively investigating the disruption and working to restore services but the interruption is ongoing.

The Court's CM/ECF Notice of Electronic Filing (NEF) email system continues to operate normally and counsel of record in any open case should continue to receive NEFs via email.

Further updates will be provided as they are received.
